Selected Work

WEB STATS [web / seo / tools]

WEBSITE VISITOR ANALYSIS TOOL

Web Stats tracks visitors of any type of websites built on any language and Hybrid apps built on PhoneGap and Corodova.

bihar.er1.online [web]

INDIVIDUAL WEBSITE FOR EACH

VILLAGES

bihar.er1.online provides individual seo friendly website for each villages of bihar. We are planning to provide individual website for each villages of whole country India.

er1.online [web]

CREATE WEBSITE FOR FREE | FREE

WEBSITE BUILDER

er1.online helps users to Create their own website for free.

Dragme IDE [windows]

VISUAL-EDUCATIONAL IDE FOR C

LANGUAGE

Dragme IDE is designed to Create C language projects by turning to this visual IDE that lets develop projects using drag-and-drop and blocks technology. It has been downloaded 10,000+ times from major software distribution sites.

BeShop [android]

COMPARE PRICES AND PRODUCTS

FOR INDIA ONLY

BeShop is smart shopping assistant that helps us Compare Prices, products and Offers from all top online stores in India. It can be downloaded from Google PlayStore.

SuperHitSong [web]

HINDI AND BHOJPURI MUSIC STORE

Superhitgana.in was online music distribution site. But, Once again Due to lack of money The project failed. Source code is publicly available at GrapeBits Github page.

Fun4Study [web]

EDUCATIONAL PORTAL

Fun4Study.co.in was an education portal, designed to connect teacher and student for online Study. Student could get tutorial from teacher. But, The ePortal doesn't receive its user due to lack of advertisement. Its Broken version can be seen at <http://fun4study.16mb.com>.

HTTP://EDIT.PW

PREMIUM DOMAIN

Premium Domain. I'm creating an online compiler for translating codes from HTML to ANDROID STUDIO Project. The Work will be published on the Domain.
